

The Peninsula wash station includes a hand dryer, an auto soap dispenser and an auto water faucet. The idea of a hand washing or a hand sanitizing station is to make the hand washing process much easier without having to move your steps. This design adds a little fun to the hand washing experience and will definitely make the washroom design refreshing.

Specifications

Hand Dryer

Voltage	110V-120V, 50-60Hz, 7.6-8.4A, 0.84-1.0kW 220V-240V, 50-60Hz, 3.8-4.2A, 0.84-1.0kW
Air Speed	84-101 m/s
Motor Type	500W, 22,000-2,9000 R.P.M. Brush Motor
Drying Time	Less than 15 seconds
Sensing Range	130mm ± 20mm, auto-detecting
IP	35
Material	#304 Stainless Steel

Auto Soap Dispenser

Voltage	110V-240V, 50-60Hz
AC Adapter	6V DC
Soap Per Drop	Liquid: 1 CC Foam: 0.7 CC Spray: 1 CC
Soap Capacity	1500 ml
Sensing Range	120mm ± 20mm, auto-detecting
IP	35
Material	#304 Stainless Steel

Auto Faucet

Voltage	110V-240V, 50-60Hz
AC Adapter	6V DC
Flow Rate	1500 ml
Sensing Range	120mm ± 20mm, auto-detecting
Material	#304 Stainless Steel
